Properly Manage Injuries, Contain Costs

At Kindred Hospital Rancho, our goal is to provide high quality injury services and medical care while helping our partners contain costs and seamlessly manage the claims cycle.

With an accurate diagnosis and a prompt and precise identification of non-work related complaints, Kindred Injury Services provides appropriate treatment plans and aggressive case management to help our patients focus on a rapid return to work.

Interdisciplinary Team Approach

Our caregivers take an interdisciplinary team approach that strives to exhaust the non-surgical treatment options before surgery is considered.

However, should surgery be necessary, our team includes board-certified, fellowship-trained surgeons and physicians who strive to exceed our patients' expectations for quality care and outcomes.

On-Site Imaging and Lab Services

Our on-site imaging and lab services allow us to provide CT, MRI and X-ray capabilities all in one location, enabling efficient case management and offering cost containment for our partners.

About Kindred Hospital Rancho

We are a state-of-the-art patient care and surgical facility with four large operating rooms, private patient rooms, a large waiting room and free parking.

Specialties include:
